Keynote Address

Monday, October 28, 9:00 AM - 10:30 AM

Dr. George Siemens

Founding President, Society for Learning Analytics Research

Human and Artificial Cognition: What Does it Mean to Learning Designers and Faculty?

We are at the early stages of a revolution in how people and society learn, think and build knowledge. In the short span of less than a generation, we have experienced a transition from traditional knowledge structures to distributed digital environments, and now, to socio-technical systems where we share cognitive processes with technology. While the promise is evident — ranging from better medical diagnosis to improved guidance on environment actions needed — cognitive technologies also call into question the core of our humanity. Most significantly, what remains the unique domain of humans when artificial intelligence can outperform us on a growing range of tasks that were until recently exclusively ours? This presentation will provide an overview of how artificial

cognitive systems impact how we learn and build knowledge - as individuals, as companies and as a society. Challenges of ethics and bias will be explored. Emphasis will be placed on how learning designers and faculty can prepare themselves and learners for a world of human and artificial cognition.

Dr. George Siemens is a founding President of the Society for Learning Analytics Research. He has advised government agencies in Australia, the European Union, Canada, and the United States, as well as numerous international universities, on digital learning and utilizing learning analytics for assessing and evaluating productivity gains in the education sector and improving learner results. In 2008, he pioneered massive open online courses (sometimes referred to as MOOCs). He researches technology, networks, analytics, and openness in education.

Dr. Siemens is Professor and Executive Director of the Learning Innovation and Networked Knowledge Research Lab at the University of Texas, Arlington. He co-leads the development of the Center for Change and Complexity in Learning (C3L) at University of South Australia. He has delivered keynote addresses in more than 35 countries on the influence of technology and media on education, organizations and society. His work has been profiled in provincial, national, and international newspapers, radio, and television. He has served as PI or Co-PI on grants funded by NSF, SSHRC (Canada), Intel, Boeing, the Bill & Melinda Gates Foundation, and the Soros Foundation. He has received numerous awards, including honorary doctorates from Universidad de San Martín de Porres and Fraser Valley University for his pioneering work in learning, technology and networks. He holds an honorary professorship with the University of Edinburgh.

Welcome to the Gaylord Texan Resort & Convention Center — home to QM Connect, the 11th Annual QM Conference on Quality Assurance in Online Learning.

This year, we will explore “Committing to Excellence for Learners” — what it means and how to actualize it. You’ve already taken an important step by coming here. At QM Connect, you will connect with ideas, people and resources that will support your commitment to excellence for learners.

The QM Connect Conference reflects QM’s rigorous approach to quality assurance in online learning. From pre-conference workshops to the keynote to breakout sessions, you will uncover actionable ideas that showcase the depth and breadth of our community’s knowledge. These ideas will provide a path forward on your quality assurance journey just as previous conferences led to inspiration and implementation for your colleagues at institutions such as Chadron State College and Springfield Public Schools in Missouri.

In addition to defined learning opportunities, you will also have time throughout the conference to engage in deep, meaningful conversations around quality with your peers. Networking opportunities such as the welcome reception, birds-of-a-feather breakfast and dine-arounds, allow you to engage in substantive dialogs with a connected and committed community. You’ll learn from what others share, form lasting friendships and maybe even open the door to new opportunities.

Another valuable asset is the sponsors and exhibitors who are here, including SoftChalk who has been a sponsor since QM Connect’s inception. SoftChalk’s continued presence, as well as the participation of each of these outstanding organizations, highlights their commitment to being part of the quality conversation. Take time to engage with them and learn how their resources and tools can support your commitment to excellence for learners.

Maximize your conference experience by connecting with the ideas, people and resources that will help improve and fulfill your online promise to students. Ask a lot of questions. Share your own experiences. And have a lot of fun along the way. Thank you for coming. Enjoy your stay.

QM Gives Back — The Annual Book Fair for Students

The Annual Book Fair for Students: Quality Matters and Scholastic Books are teaming up to host the seventh annual QM Gives Back event dedicated to the life of Anne Smedinghoff, Johns Hopkins University alumna and U.S. State Department Diplomat. Anne died in the service of her country as she was traveling with a group to deliver books to a local school in the Zabul Province of Afghanistan in 2013. Each year, QM partners with a local school in the city where the annual conference is held. Look for the Scholastic Book fair booth at the conference where you can purchase books for yourself or to donate to Harlean Beal Elementary School in Fort Worth. Harlean Beal serves 445 students from pre-kindergarten through grade 5. The school has a wish list if you'd like to contribute to it. All proceeds go towards the school.

Badges

Please wear your badge to all general and concurrent sessions, meal functions and special events.

2019 QM Award Winners

Ron Legon Leadership Award for Quality Assurance in Online Education

Purpose

In honor of the extraordinary leadership and innovative ideas of Dr. Ron Legon, Executive Director Emeritus of Quality Matters, Inc., this annual award recognizes individuals whose conceptual, policy, or operational contributions to quality assurance in online education stand out. The award is presented at the QM Conference. The Ron Legon Leadership Award recognizes individuals for their positive impact on and contributions to quality assurance in online teaching and learning, theories and practices in quality assurance and innovations to further quality assurance in online education. Individuals whose leadership efforts have changed the online education quality assurance paradigm for the betterment of students and educators particularly deserve this award. Lifetime achievements in online education quality assurance will be considered.

Criteria

Individuals with the following leadership qualities are considered for this prestigious award.

They:

- ✓ are recognized as leaders in online quality assurance
- ✓ have had a significant impact on online education quality assurance policy and/or practice in higher education, K-12, publishing, and/or continuing education
- ✓ are visionary and innovative, striving to improve the future of online education through quality assurance
- ✓ have shown a commitment to continuous quality improvement in online education
- ✓ have shifted the paradigm of quality assurance in online education
- ✓ adhere to core values and ethical standards
- ✓ are exemplary in mentoring future leaders

The 2019 Ron Legon Leadership Award for Quality Assurance in Online Education is presented to:

Dr. Roxann Humbert

Dr. Roxann Humbert has been a champion for quality online education in West Virginia, regionally and nationally for over twenty years. She has held leadership positions at the college and state level and has presented regionally and nationally on topics related to quality online education. Dr. Humbert recently retired from her positions as Founding and Executive Director of the West Virginia Remote Online Collaborative Knowledge System (WVROCKS) and graduate assistant professor at Fairmont State University.

Directors' Award for Exceptional Service to Quality Matters

The Directors' Award for Exceptional Service is presented to members of the QM community who have gone above and beyond common service to the organization. These individuals have made extraordinary contributions to QM's quality assurance efforts with online and/or blended education at institutions, and for learners. This award is presented at the discretion of the Quality Matters Directors Group and may not necessarily be awarded every year. Individuals and groups that exemplify QM's focus on student learning through the implementation of QM standards, practices and processes that demonstrate impact on student success are recognized for their contributions.

**The 2019 Directors' Award for Exceptional Service
representing Higher Education is presented to:**

Bethany Simunich of Kent State University

**The 2019 Directors' Award for Exceptional Service
representing K-12 is presented to:**

Clay Ham of South Carolina Department of Education

Making a Difference for Students Awards

Quality Matters' mission is to promote and improve the quality of online and blended education to support learners. This award recognizes individuals or groups that exemplify QM's focus on learners through the implementation of QM Standards, practices and processes that have demonstrated impact on learner success. The implementation should be either broadly transformative in impacting the general learner experience in online and/or blended courses or significantly and directly meaningful for a specific subset of learners. Evidence of success — statistical and/or anecdotal — should clearly demonstrate positive outcomes for learners.

Outstanding Impact by an Individual

The Outstanding Impact by an Individual award recognizes individuals whose efforts to champion the Quality Matters process at their institutions have yielded demonstrable impact on the quality of online and/or blended education. The impact may be in the form of specific innovations that have yielded positive outcomes for the institution or in the scale and scope of the adoption of the QM Rubric, process, or program across the organization.

Individual Winner:

Aamna Nayyar, Santa Fe Community College

Outstanding Impact by an Organization

The Outstanding Impact by an Organization award recognizes Higher Education institutions or groups that exemplify QM's focus on learners through the implementation of QM Standards, practices and processes that have demonstrated impact on learner success. The implementation should be either broadly transformative in impacting the general learner experience in online courses or significantly and directly meaningful for a specific subset of learners.

Institution Winner:

California State University - East Bay

Outstanding Impact by a K-12 Organization or Individual

The Outstanding Impact by a K-12 Organization or Individual award recognizes a K-12 organization or individual that exemplifies QM's focus on learners through the implementation of QM Standards, practices and processes that have demonstrated impact on learner success. The implementation should be either broadly transformative in impacting the general learner experience in online courses or significantly and directly meaningful for a specific subset of learners.

Institution Winner:

Springfield Public Schools

F, ID, I <i>Engagement Strategies for Learners</i>	A Story of Programmatic Redesign with Quality Matters in Mind <i>Johannah Baugher, Assistant Professor & Graduate Reading Program Coordinator, Northwest Missouri State University</i> This poster will share a story of programmatic redesign within an entirely online graduate program offered by a rural-based educator preparation program at a four-year university.	
F, A, ID, I <i>Engagement Strategies for Faculty</i>	Going Portable for Standard 7: How to Help Faculty Embed Student Support Services into Their Courses <i>David Becker, QM Course Review Manager & Coordinator, Indiana University Southeast</i> See how IU Online is building portable, open access course resources to help faculty bring support services directly into the classroom — even if they are not pursuing QM certification.	
F, ID, A, I <i>Engagement Strategies for Faculty</i>	YES YOU CAN! 3 Simple Steps to Creating a High Quality Low Cost Course <i>Stephanie Delgado, Senior Instructional Designer, Florida International University</i> The Backward Design Model is effective in assisting faculty to develop a high quality course. SMEs who have strong functional knowledge of content but would like more guidance in best practices tend to really appreciate this streamlined approach. Join us to find out all about it!	
F, ID, N <i>Engagement Strategies for Learners</i>	Using Gentle Encouragement to Facilitate Student Achievement <i>Tracia Forman, Assistant Professor, The University of Texas Rio Grande Valley</i> This poster presentation will describe a quantitative study examining the impact of an instructor-learner communication strategy, deployed within a large (>100 students) graduate online course on cognitive, social and teaching presence.	
QMC, A, ID, I <i>Engagement Strategies for Administrators/Institutions</i>	Growing from the Ground Up: Implementing QM While Changing a Campus Culture <i>Mark Gale, Assistant Professor of Instructional Design; Lynn Frank, Instructional Designer; and Gary Valcana, Associate Professor of Management & Department Chair, Athens State University</i> In Fall 2017, Athens State University began a QM initiative. The one rule is the process must be voluntary. With over 30 QM certifications since that time, this poster will discuss the techniques used for changing the culture on campus.

ID, F, I <i>Engagement Strategies for Learners</i>	Developing and Implementing an LMS Orientation Module: Lessons Learned <i>Sally Hughes, Instructional Design Specialist, Blinn College</i> This poster will detail the development and implementation of a student orientation course to prepare students for online classes. We will share results, struggles and lessons learned.	
A, ID, F, N <i>Leading Quality Assurance</i>	Train Your Team Before Moving Forward with QA Initiatives <i>James “JJ” Johnson, Senior Director of Eastern Online & Instructional Technology and Design, Eastern Washington University, and Eddie Andreo, Associate Vice President for Distance Learning, Cowley College</i> #QMConnectTrainYourID Join us to discuss how and why an institution put all online learning instructional design staff through the APPQMR. The reasons for the decision, staff attitudes before and after and the results will be presented in this poster.	
ID, R, F, I <i>Quality Assurance: Theory to Practice</i>	Quality Matters, but so Does Your Time! <i>Natasha Lindsey, Associate Professor & Instructional Consultant, and John McGee, Director, Educational Technology Services, University of North Alabama</i> Come share and discuss time-saving tips, tools and techniques to applying the QM Rubric to course development, redesign and course reviews.	
F, A, ID, E <i>Engagement Strategies for Faculty</i>	Building and Sustaining Momentum for Quality Assurance in an Online Graduate Program <i>Marcia Montague, Visiting Assistant Professor, Texas A&M University</i> This poster’s focus is approaches used to engage faculty in course improvement. With program-level leadership and department and university support, significant efforts to meet QM Standards are underway. I will discuss our process and progress.	
F, ID, A, I <i>Engagement Strategies for Learners</i>	Using a Learning Management System to Engage Online Learners <i>Kizito Mukuni, Instructional Design Support Specialist, and Jeeyoung Chun, Ph.D. candidate, Virginia Polytechnic Institute and State University</i> This poster will focus on how the features of a learning management system can be used to engage learners in an online learning environment.	
A, F, ID, E <i>Quality Assurance: Theory to Practice</i>	Aligning QM Standards and Accreditation Hallmarks to Foster Quality <i>Mary Nicholson, Professor Instructional Technology, Bloomsburg University</i> Accreditation hallmarks, QM Standards, and a DE gap analysis resulted in strategic enrollment action plans for institutional improvements. The process of self-study promotes DE growth that promotes student success when QA principles are followed.
