1Yr+ offers services to different roles within the University system.

The 1Yr+ Fellowship receives an average of 27 applications.

The New2Online Program is a growing area among faculty.

The Summer Institute demonstrates a completion rate of 97%.

Faculty Feedback

Student Learning:

"The students are actually the ones that benefit from this program ultimately and it should be something that faculty members should be required to do."

Quality Matters:

"Going through the QM rubric, I realized there are many more reasons that students are not learning the way I expect them to-it is not the material- it is the way the material is presented. Organizing from the start is important."

Mentor Support:

"Thank you all for your help! I couldn't have made it through this without my mentors."

Professional Development:

"Just have to thank you (AGAIN) for all I learned from OCIP."

Program Expansion:

"I think this program should be mandatory for all faculty teaching online."
