**About me**  
Welcome to Julie Thompson's page!  
I graduated from UC Berkeley in 2000, and after finishing my credential, I took 6 months off to live and study in Spain. What a wonderful experience! I couldn't wait to get back and start teaching though—I taught for 2 years at a high school in Florida, and then moved here 3 years ago with my husband and our daughter. Middlebrook has been such a wonderful home for us—we love it here!  
I found Quia in my first year of teaching high school Spanish, and my students loved the vocab activities right away. So, I kept it going, and here are some of the activities and quizzes that I've created over the years. Please feel free to use them!

# Teachers and students love Quia...

“Even the most tech-timid of our faculty have grown to depend on their Quia accounts. They find it easy to update and they love the fact that they can do it from home, if need be. They have taken the time to learn how to design their Quia pages, adding color, clip art, animation, document, powerpoints, and audio clips. The Quia page is a way for the teachers to ‘share’ the school day with parents.”

*Joyce Cluess, technology director, California*

“I LOVE Quia!!!! I use Quia for 99% of my students’ homework, quizzes, and exams. I feel that students do better on assessments and homework assignments, because if students make a mistake on a Quia quiz, they find out right away and they can make corrections on the next question so that they can show me what they really know. In 11 years of teaching I’ve never had a student do an assignment 16 times because 97.5% just wasn’t good enough! He wouldn’t stop until he had 100% on his Quia activity.”

*Raul Gaston, Spanish teacher, Illinois*

“My grades dramatically increased with using this website. My parents are very proud of me! I use Quia mostly for French, before I have a large test. I used to have problems in that class but now I have an A+!”

*8th grade student, New York*
